Higher Secondary Education in Computer Science

SKILLS

Tech Skills: HTML, CSS, JavaScript, ReactJS, Node.js, Git, Express JS, MongoDB

Soft Skills: Interpersonal, Flexibility, Adaptability, Time Management, Verbal Communication

PROJECTS

Super App | *HTML, CSS, Javascript, ReactJS, VS Code* Mar 2024 - Current

- Developed a front-end web application using React, facilitating user authentication for personal websites.
- Key features include a timer, weather report display, and a notepad for storing personal notes.
- Additionally, the application enables users to input and save information, which persists across login sessions for seamless user experience.

Personal Portfolio | *HTML, CSS, JavaScript, ReactJS, VS Code* Mar 2024 - Apr 2023

- Developed a front-end web application to show case my projects and skills
- Utilized DOM manipulation techniques during development. The website undergoes regular updates upon the completion of new projects.
- Utilized responsive design principles to ensure a consistent experience across different devices
